

# Eco Deck Tiles

Our Eco Deck Tiles allow you as a design professional, to create a beautiful deck on any existing or exterior hard surface without complicated deck construction. Easy Installation and completely Re-usable.

Our tiles come in three of the strongest, most durable hardwoods available today, **Ipe, Curupay and Grapia**. Each unique in color and appearance, all share their incredible natural ability to withstand extreme weather conditions.

**Resistant to:**

- Slippage
- Rot
- Staining
- Splintering
- Water
- Termites and other wood eating bugs
- Class A Fire rating, the same rating given to concrete and steel

**Product Qualities:**

- Woods are from Sustainable Forest
- Snap them together, no nails, screws or adhesives required
- Withstands blistering summers and hard winters
- 50 year lifespan, if maintained
- Easy to install, no tools
- Create floor spaces of any shape or size
- Mix and Match tiles
