The Green in Fire

Our goal is to create unique atmospheres that influence our daily lives, stimulate our energy and through the atmosphere of change enhance our potential.

The Fireplaces unite modern, international design and the advanced technology of eco-friendly, smokeless bio ethanol fireplace. Planika Fires are not only elements of interior design but most importantly they are real vent-less fires enhanced by design.

All Fire runs on Fanola® - a renewable ecological liquid fuel, certified for the user's and environmental safety.
